## **SUMMARY:**

Software engineer programming and administering a requirements management database in an SEI-CMM Level 3 environment on large budget projects. Demonstrated talent for problem-solving, adaptability in an ever-changing environment, and quick learning of unfamiliar topics.

## **PROFESSIONAL EXPERIENCE:**

### *Software Engineer – Teragon Consulting LLC – 2000 to Present*

Designed and implemented requirements management for new project. Streamlined change management process. Programmed macros in Visual Basic for Applications for Microsoft Word and Excel and scripts in Telelogic's DOORS DXL language (a proprietary derivative of C++).

### *Contractor – TEKsystems – 2000*

Wrote Knowledge Base entries.

### *Software Support Technician – Applied Systems, Inc. – 1998-2000*

Troubleshooted proprietary software in a Windows networking environment. Trained new employees, developed curriculum for training, and wrote Knowledge Base entries.

### *Adjunct Faculty – Kirkwood Community College – 1999-2000*

Taught a class titled "Introduction to Microcomputers and Data Processing", an introductory computer class for non-computer majors.

## **TECHNICAL SUMMARY:**

- Certified DOORS trainer/administrator/programmer in a distributed environment with hundreds of users.
- Programming experience in many different computer languages: VisualBASIC, VBA, HTML, DXL, PHP, PERL, C/C++, Java, JavaScript, COBOL, Pascal, Fortran, Assembly.
- Fluent in IBM compatible personal computers with various platforms: MS-DOS, Windows 3.x, Windows 9x, Windows NT Workstation, Windows 2000 Workstation, Windows XP.
- Proven mastery in many programs: Word, Excel, PowerPoint, Paint Shop Pro, Netscape Communicator, Internet Explorer
- Experience with many software programs: Access, Flash, PhotoShop, 3D StudioMax, various text and hex editors, etc.
- Experience with other personal computer platforms: Apple Macintosh, Sun SPARCstations.
- Experience with LANs and WANs with various platforms: Unix, Windows 9x Peer-To-Peer, Windows NT Server, NetWare 3.x, NetWare 4.x, NetWare 5.x, Citrix WinFrame, Citrix MetaFrame.
- Experience with hardware aspects of IBM compatibles, including assembly, upgrades, and troubleshooting issues.
